

This is How you ICP-MS: Mastering the Art of Cone Performance

Webinar

Speaker:

Gareth Pearson
ICP-MS Spectroscopy Supplies
Product Manager
Agilent Technologies

Tuesday September 18th, 2018

Broadcast #1 – North America:

1:00 pm PDT (Los Angeles)
3:00 pm CDT (Chicago)
4:00pm EDT (New York)

Broadcast #2 – Asia Pacific:

9:30 a.m. IST (New Delhi)
12:00 p.m. SGT (Singapore)
2:00 p.m. AEST (Sydney)

Wednesday September 19th, 2018

Broadcast #3 – Europe:

10:00 am BST (London)
11:00 am CEST (Paris)

On Demand Webinar

(post 19th September 2018)

Interface cones are integral to the performance of your ICP-MS. This presentation will guide you through selecting the right cones for your Agilent ICP-MS instrument and for your laboratory's applications. It will help you understand what impact the cone has on the analysis results and why you should choose genuine supplies for your ICP-MS. Finally, we will guide you through the best practice for cone maintenance.

ICP-MS instrument users attending this event will learn how to:

- Select the right cone for your needs
- Understand the risks and costs associated with use of non-genuine cones
- Avoid instrument downtime and QC failures associated with poor performance
- Maximize your investment in interface cones
- Extend your cone lifetime
- Avoid costly damage to cones through mis-handling

Who should attend:

- ICP-MS users
- Laboratory managers
- Those involved with maintaining ICP-MS instruments

Why you should attend:

- As a major supplier of spectroscopy and chromatography instruments, supplies and services, Agilent can assist ICP-MS instrument users reach new levels of productivity and efficiency by providing access to the power of its resources, knowledge and expertise.
