

Purillex™ Jars for Life Sciences

Saville offers our Purillex™ jars to support a wide variety of critical applications from bioprocessing to tissue handling and storage. These molded PFA jars are widely used for the secure collection, storage, archival or disposition of a wide variety of materials. Purillex jars are ideal for applications that require cleanliness and chemical stability.

Design Features

The seamless design, radiused interior, and wide-mouth opening allow for the easy transfer and removal of entire contents. Produced using the exact same resin manufacturer and resin grades as our Purillex® bottles, our Purillex jars are USP Class VI also come with full USP testing and manufacturing lot certification.

The injection molding process produces excellent thread quality and avoids the need for secondary machining of the jar lip, greatly reducing the risk of particulate contamination. A high integrity seal is ensured, without the need for secondary seals or inserts. All jars have radiused bottoms for ease of extracting contents. Purillex jars can easily withstand temperatures down to liquid nitrogen conditions (-196°C), while maintaining seal integrity.

60 mL Purillex PFA Jar

120 mL Purillex PFA Jar

240 mL Purillex PFA Jar

Material Working Temperature Range

PFA: -328°F to 500°F (-200°C to 260°C)

Available Pre-Sterilized

All Purillex jars are available pre-sterilized, ready-to use (RTU) and individually double-bagged with up to a 5-year shelf life. All sterilization processes are validated to ensure a SAL (sterility assurance level) of 10⁻⁶ which is the industry standard for use in aseptic applications.

Sterilization Process for RTU Products

Material	Sterilization Process
PFA	Autoclave

Ordering Information

Jar Size	Closure Size	PFA Part # (non-sterilized)	PFA RTU Part #	Minimum Order Qty
60 mL	53 mm	171-01-0060-01	171-01-0060-01-A	100
120 mL	70 mm	171-01-0120-01	171-01-0120-01-A	100
240 mL	70 mm	171-01-0240-01	171-01-0240-01-A	100

- Also available in FEP by special order
- All Purillex jars include closure
